THEORY AND METHODS OF TEACHING MATHEMATICS:

didactical and methodical bases

*Recommended by the Ministry of Education and Science of the
Republic of Kazakhstan*

Almaty "Mektep" 2014

CONTENTS

PREFACE.....	3
Chapter 1. MATHEMATICAL EDUCATION	
1.1. Mathematics as a science and a subject.....	7
1.2. The role and place of mathematical education in modern society.....	9
1.3. Mathematical education in the system of continuous education.....	10
Chapter 2. METHODS OF TEACHING MATHEMATICS	
2.1. The subject of methods of teaching mathematics.....	12
2.2. The interrelation of methods of teaching mathematics with other sciences.....	16
2.3. Actual issues of the development of methods of teaching mathematics.....	18
2.4. Teaching mathematics as a pedagogical system.....	22
2.4.1. The aims of teaching mathematics.....	24
2.4.2. The content of the school course of mathematics. Principles of designing the content of teaching mathematics.....	29
Chapter 3. DIDACTIC PRINCIPLES AND METHODS OF TEACHING MATHEMATICS	
3.1. Basic didactic principles of teaching mathematics.....	41
3.2. Classification of methods of teaching mathematics.....	44
3.3. Scientific methods of cognition in teaching mathematics.....	51
3.3.1. Empirical methods of knowledge.....	51
3.3.2. Logic methods of cognition.....	55
3.3.3. The general and private methods of teaching mathematics.....	78
Chapter 4. MATHEMATICAL CONCEPTS AND METHODS OF THEIR STUDY	
4.1. Concepts, stages of formation of concepts.....	83
4.2. Concept definition. Types of definitions. Requirements to definitions.....	87
4.3. Classification of concepts.....	89
4.4. Methods of work with concepts.....	93
Chapter 5. MATHEMATICAL STATEMENTS AND THEOREMS, THEIR PROOFS. METHODS OF TEACHING TO PROOFS	
5.1. The mathematical theory. Axioms. Statements.....	103
5.2. Conclusion. Deductive conclusion.....	106
5.3. Structure and types of proof. Teaching evidence.....	109
5.4. Theorems. their aspects. Teaching theorem proofs.....	115
Chapter 6. MATHEMATICAL TASKS	
6.1. Definition and structure of the task. Classification of tasks.....	128
6.2. Functions of tasks in teaching mathematics.....	131
6.3. Teaching solution of tasks.....	133

Chapter 7. ORGANIZATION OF TEACHING MATHEMATICS IN MODERN SCHOOL

7.1. A lesson and its structure. Requirements to a lesson	140
7.2. Preparation of the teacher for a lesson and its carrying out.....	151
7.3. The lesson analysis as a methodical component of the teaching process	157
The scheme of the analysis of a lesson	164
Procedure of the lesson	168
7.4. Control and assessment of the educational activity of pupils.....	170
RESOURCES	178
